

## EXTERNAL FOOD WAIVER – ZINC

### Indemnity for Food Supplied by Client

Whilst Zinc respects the needs of its customers to make those special occasions truly memorable by having some speciality food and beverage items prepared offsite, Zinc has invested a lot of time and effort in ensuring the provision of food and beverage service at your function is as safe as possible. We do not wish to compromise the safety of guests through the consumption of food not prepared, or beverages not provided by Zinc. Therefore, if speciality food items or beverages are required it is preferred that they are sourced from commercial food processors and prior approval sought pre-event.

Therefore, all food brought into the venue must be heated or chilled to comply with Victorian Food Act 1984 be in sealed containers and come through the Zinc loading dock where temperature is checked by the Receivables Coordinator.

Where the speciality food items or beverages are provided by the client, it is required for the protection of guests that the Hirer sign an indemnity in favour of Zinc.

Please complete the details below BY FRIDAY 2 OCTOBER and email for approval to: [craig.tierney@zincfedsq.com.au](mailto:craig.tierney@zincfedsq.com.au)
